Victims of Richard Johnson (JMS Worldwide LLC) Victims' Testimonials

Hello PSC Commissioners,

My name is Kevin Marra and Richard Johnson (operating as JMS Worldwide LLC) a household goods mover in the Charleston area, stole from me in April of 2018.

I am currently preparing for a hearing in front of your commission in late October and during the hearing I will ask you to rescind Richard Johnson's license to operate as a household goods mover in South Carolina.

The purpose of this email is to make sure that when I present my case in October that you don't respond, "this is the first time this commission is hearing of this matter." The sad truth is that Richard Johnson has a long history of stealing from his customers in Charleston area.

To support my claim that Richard Johnson has been stealing from his clients for many years, I am adding to this email the reviews of Richard Johnson's business practices that have been posted online in places like Yelp, Google, the BBB and various other websites. I will also present this as evidence at my hearing in front of the PSC in October.

I am looking forward to meeting you all in October!
 Kevin
